Dear, Sir / Madam and school children/

As we have entered in sixth month facing Covid 19 effect, I want to provide effects of Covid 19 impact, it would be an understatement to say that these global pandemic has changed the world economy. We have also heard report of state shutdown resulting percentage of unemployment has increased by July. As we breakdown further to city, we see the economic impact from Covid 19 in very real terms: our favorite restaurants and shops are closed from a there are long lines at the grocery stores, hotels are empty, and friends neighbour are working from home or have seen their employer close the door as a result of state wide stay at home orders. Company is paying for only essential staff who work sumatly others having terminated. Some Company has reduced staff salary by 50%. Now a days due to scarcity of production and closer transportation, the price of everything has increased, people are not affordable to maintain living requirements, in min time some person as me has to ~~maintain~~ change home under lockdown. We were not in position to give deposit money for taking room on rent in Kolkata City so we have to take shelter in relative home till lockdown ends. My parents sacrifices in paying our house rent ~~fulfills~~ home requirements in minimum salary as Company deducting 50% due to Covid 19, in these

year we have not purchase clothes and not celebrated any event. we will come out of tragedical situation we are thankful to all who helped us in critical time. we have fox gotten our hobby and interest just passing our life with family. But ~~to~~ ~~we~~ because of your help we are able to study.

Thanking You
